

FATHIMA AZRA SUHAIR

Associate Software Engineer

suhairazra@gmail.com | +94 77 267 5721 | [LinkedIn](#) | [GitHub](#) | Matale, Sri Lanka

PROFESSIONAL SUMMARY

Results-driven Associate Software Engineer with a BEng (Hons) in Software Engineering (First Class) and hands-on experience as a Laravel Developer Intern. Proficient in full-stack web and mobile development using Laravel, React.js, Flutter, and Node.js. Experienced in building RESTful APIs, OCR-based systems, and scalable e-commerce platforms. Passionate about clean code, secure architecture, and delivering high-quality software solutions.

WORK EXPERIENCE

Full Stack Developer Intern (Laravel) | *Quick Man* 2026 March - present

- Developed and maintained full-stack web features using Laravel (PHP) for the backend and Blade/Tailwind CSS for responsive frontend interfaces.
- Designed and built RESTful APIs consumed by frontend and mobile clients, following REST conventions and versioning best practices.
- Implemented JWT-based authentication and role-based access control to secure API endpoints and user sessions.
- Performed database design, schema migrations, and query optimization using MySQL to ensure performance and data integrity.
- Managed source code using Git and GitHub — including branching strategies, pull requests, and code reviews — to maintain a clean version history.
- Collaborated with cross-functional teams to translate requirements into working features, delivering tasks on schedule within an Agile workflow.
- Wrote clean, maintainable code following MVC design patterns and Laravel best practices, with proper documentation.

RESEARCH & PUBLICATIONS

E-Fine: An Integrated Mobile System for OCR-Based Traffic Violation Processing and Online Fine Payment

Published at **IMPETUS 2026** — UWA Wellassa University International Research Conference, 2026

EDUCATION

BEng (Hons) in Software Engineering — First Class 2022 – 2026

Asia Pacific Institute of Information Technology (APIIT), Sri Lanka

GCE Advanced Level — Physical Science Stream

Government Science College, Matale

2019 – 2021

TECHNICAL SKILLS

- **Programming Languages:** Java, C#, JavaScript, PHP, Kotlin, Dart
- **Frameworks & Libraries:** Laravel, Flutter, React.js, Svelte, Node.js, Livewire
- **UI Frameworks:** Bootstrap, Tailwind CSS
- **Databases:** MySQL, Microsoft SQL Server, MongoDB, Firebase Firestore
- **Technologies & Tools:** Tesseract OCR, REST APIs, JWT Authentication, AWS (EC2, S3, RDS), Tableau, Firebase Auth, Computer Vision
- **Version Control:** Git, GitHub

KEY PROJECTS

Online Traffic Fine Payment System (OCR-Based) — Final Year Project — *Technologies: Tesseract OCR, Flutter, React.js, Node.js, Microsoft SQL Server, ASP.Net Core*

- Designed and developed an OCR-based system to automatically extract data from Sri Lankan driving licenses and vehicle number plates.
- Built dedicated mobile apps for police officers and drivers alongside a web-based admin dashboard.
- Automated traffic violation detection and fine generation, reducing manual input significantly.
- Integrated secure online payment functionality and violation history tracking.
- Trained and evaluated OCR models using synthetic Sri Lankan driving license datasets from Kaggle.

E-Commerce Web Application — *Technologies: Laravel, PHP, MySQL, Livewire, Tailwind CSS*

- Developed a full-stack e-commerce platform with product management, user authentication, and order handling.
- Designed a responsive, accessible UI using Livewire and Tailwind CSS with MySQL for persistent data storage.

Pet Care Management Web Application — *Technologies: Laravel, PHP, MySQL, Tailwind CSS, REST APIs*

- Built a full-stack pet care platform enabling pet owners to register pets, schedule veterinary appointments, and manage care records.
- Implemented an automated medication reminder system to notify pet owners of upcoming treatments and dosage schedules.
- Developed role-based access for pet owners and administrators with secure authentication using Laravel Breeze/JWT.
- Designed a responsive UI with Tailwind CSS and integrated MySQL for reliable data persistence across all modules.
- Implemented appointment status tracking (pending, confirmed, completed) with real-time updates for a seamless user experience.

Full-Stack E-Commerce Mobile Application — *Technologies: Flutter, Dart, Firebase Auth, REST APIs*

- Built a cross-platform mobile e-commerce app featuring user authentication, product listings, cart, and order management.
- Integrated REST APIs for real-time dynamic data handling with Firebase as the backend service.

SOFT SKILLS

Problem Solving | Analytical Thinking | Teamwork | Communication | Adaptability
